

Incentivize

Create an **favorable environment** for innovations that support **agroecological transition** and change of practices (remunerate, incentivize, de-risk)

What kind of mechanisms ?

Incentives

- Training
- Knowledge
- Advice
- Group Dynamic
- Financial support

Remuneration

- Price premiums
- Ecosystem services
- Innovative finance (Pay on results)

 **Our vision:** the transition can not only be bear by the farmers, **all the stakeholders should be included** in finding and implementing solutions, **as heathy soils benefit for the society as a whole.**
