

Support

How to support the transition ?

- Change scale - move from a pilot approach to a strong commitment from the sectors
- Support the change with cooperatives and traders - 300 farmers to be supported in 2021
- Support the change with the agri-food businesses in direct link with farmers

Actions

- Consolidate the network of experts on the subject of regenerative agriculture with the aim of training technicians and farmers
- Co-constructing support methods with agricultural advisors, cooperatives/traders, farmers and the landscape's stakeholders
- Establish a diagnosis of the strengths and weaknesses of the cooperatives or traders

Today, working with an **ecosystem of partners** (a network of expert and recognized agronomists) to support change
